

Space USB Flash Drive

Item no.:10230

Plastic

Appealing design combined with great usability makes the Space USB Flash Drive a popular companion. The 2 component memory stick is made from high-quality, shock resistant plastic and can be ordered in five different colours. The USB flash drive shows a green flashing LED light when data is being read and saved. It has a matt finish adorned in silver with space for your company's logo. It is one of the best ways of transporting your data safely and it guarantees that clients will not forget you.
